5 1/2 digit multimeter
measuring DCV, ACV, DCI, ACI, Resistance
(2 & 4 Wire), Capacitance, Diode Test,
Frequency, and Temperature. support **LAN**
and **GPIO**
interfaces. **IVI Driver**

Datalogger 8 (16) analog/switch inputs
(230V50Hz)
Measurements functions,input selection ,
programming with display or PC.
Res.0,1 °C, mittausalue -200...+850 °C
Res. 0,1 °C, mittausalue -260...1760 °C, cold
junction compensation incl.
Voltage res. 0,05 uV, imp. > 100 Mohm
current Res. µA, imp. 100 ohm
ohm.Res. 0,1 ohm

Wt: kg:

ID: **5432**

size: cm

True 6 1/2 digit resolution DMM
Minimum Integration Time is 0.006 PLC for more than 8,000 measurements per second
True-RMS AC Voltage & Current measurements
View real time measurement trending or histograms from the front panel
Built-in comprehensive configurations for a variety of temperature sensors
GPIB, USB, RS-232, and LXI-C (Ethernet) Connectivity

Array electronics m3500a

S/N#**new**

Wt: **6** kg:

ID: **2144**

size: **53*34*26** cm

DMM 6,5 High speed and accuracy
hp34401a compatible
19 full-featured functions
Support temperature measurements
Support multi-point scan
Built in standard USB interface and GPI Optional
Excellent performance on noise immunity
Dual display with 3-color annunciators
